Ferretti 460

With its 3 cabins, Ferretti 460 is the perfect balance of size, performance and comfort. The whole carpentry was designed to optimise the use of the space and increase visually the interior with bright coloured oak wood and final elements that make a impressive contrast with the other materials .

The spacious saloon has a U- shaped sofa of clean design, with a central table that can be extended to transform the living area into a dining room.

You will appreciate the ample fly bridge that was designed in order to provide a unique view and mode of enjoying the sea.
